

Business Analysis, Design and development using Object Oriented Technologies, industry standard coding methodologies with use of application frameworks and design patterns are our core strengths.

Our domain knowledge lies heavily in open source technologies and Mobile/WAP applications, the Team-Ceynocta is small, but capable of handling any development project in following technologies:

Scripting

Frameworks

Programming

- PHP
- JSP
- ASP.Net
- JavaScript
- VB Script

- Zend
- Symfony
- Kohana
- Codeigniter
- .NET

- Java
- C#
- C++
- Visual Basic
- VB.NET

Opensource

Mobile

Designing

- Joomla, Drupal, Wordpress
- Moodle, Open-School
- Project Open, DotProject
- OSCommerce, Magento
- Sugar CRM, Vtiger,
- ADempiere, Alfresco

- WAP sites
- Android
- Windows mobile
- iPhone
- J2ME
- Palm OS

- Adobe Photoshop
- Adobe Illustrator
- Adobe InDesign
- Corel Draw
- Corel Photopaint
- Gimp

Multimedia

Databases

Web Services

- Scala Digital Signage
- Adobe Flash
- Adobe Premiere
- Adobe After Effects

- MySQL
- PostGre SQL
- MS SQL Server
- Oracle

- XML-RPC
- SOAP
- WSDL
- JSON

Web Servers

Streaming Servers

Platforms

- Apache, IIS
- Tomcat, JBoss

- Darwin
- Helix

- Windows
- Linux
